Additional information from the company:

We are offering the MPTA members a special 15% off order discount if you order by 6/30/20. We have stock and custom designs we can offer members for counter Sneeze guards based on needs. We want to help reduce the spread of COVID-19 keeping both the staff and patients safe. Visit our new web site [www.sheashields.com](http://www.sheashields.com) enter - MPTA - in the promo code box on the home page. Please circulate this email to anyone who might want these safety products for protection and the prevention of spreading COVID-19.

We are introducing and launching a new line called **CoronaCare**...

This line features PPE products that will **reduce the in-store airborne transmittal of bodily fluids that may contain the Coronavirus.**

**Sneeze Guards Staff/Patient Safety Shields** we have recently designed and are making from clear acrylic plastic shields for c-out lanes, pharmacy, customer service counters and any other face to face close proximity situations. These safety shields will maintain the social distancing needed by placing the clear plastic physical barrier between your cashiers/employees and your shoppers for everyone's safety. We have various designs/sizes to choose from and mounting options depending on your needs and your equipment at the check-out /counter areas. Custom sizes and designs can be created for your specific needs. We just published this video on 5/5/20 that shows a few medical offices recently set up with the SheaShield Sneeze Guards [https://www.youtube.com/watch?v=WhXbuYP\\_1Lo](https://www.youtube.com/watch?v=WhXbuYP_1Lo)

If you want to see individual views, click here for another video showing many designs for Countertop Sneeze Guards <https://www.youtube.com/watch?v=9i0ATLYBtV4>

**Safety Face Shields** is another product line offering for both retail sales and/or for your employees'/patients' safety and protection. Wearing the crystal clear flip-up shields will really make people more comfortable and secure with this type of protection to avoid the virus getting into your eyes, nose and mouth. As they say it takes only one sneeze or cough to get the virus airborne and affect others quickly. We offer our Standard Shield with cushion and elastic band, our Deluxe design that has the flip-up shield and our Premium version that flips up with the comfort cushion on the forehead band.

Check out the first YouTube link live demo of all 3 Face Shield designs <https://sheashields.com/video-shields.php#overview>

Let us know if you would like to set up a phone call to discuss the new SheaShield designs and your needs. You can call or email your order in to our office [HO@tmshea.com](mailto:HO@tmshea.com) or call 1-800-992-5233, thank you !

Get Safe- Get Protected- Get CoronaCare!
