Statement of Interest:

I am looking forward to the privilege of serving as Vice President of this association. I feel that my experience both in the therapy field and in leadership roles in various other organizations will allow me to add value to the organization. I do believe in being a lifelong learner, as noted from finally getting my DPT last year and I think we need to continue to look at Michigan specific training that we may be able to provide through APTA Michigan in a variety of formats.
